MEMORANDUM FOR:

[REDACTED]  
RM/CT Registry

25X1  
FROM:

[REDACTED]  
Chief, CSG

SUBJECT: Classification of Codewords and Titles

1. There is a lot of activity going on in connection with revising the whole compartmentation program. It looks like whole systems [REDACTED] will disappear and be replaced with a single system.

25X1

2. As part of this effort, serious consideration is being given to the question whether or not codewords, standing alone, can be classified. Those saying they cannot be classified are using the new E.O. 12065 as support. This group seems to be winning but opposition continues.

3. Don't give up hope. My promise to get you a consolidated listing holds.
